OPTIBEEF™ farm pack

Figure 1. Sarsaponin Improves Nitrogen Retention

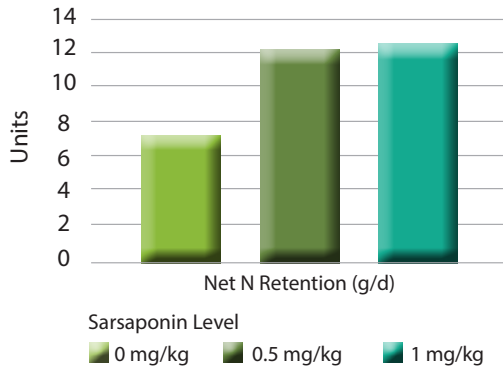

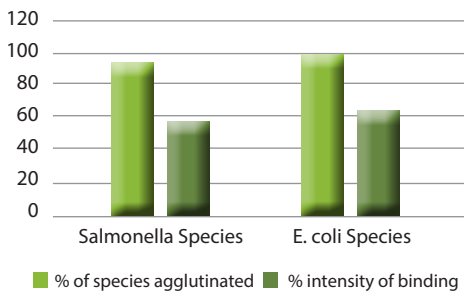

Figure 2. Binding Effectiveness Against Pathogens

► Product Description:

Get your cattle on feed faster and keep them healthy with Natural Biologics' convenient on-farm pack. **Introducing Optibeef™ farm pack.**

Optibeef™ is an all-natural blend of yeast components, plant and algae extracts. The biologically active compounds from these natural sources have well-established benefits for animal health and productivity.

► Look to the components in Optibeef to:

- Combat gut pathogens and toxins
- Support immune function
- Increase rumen efficiency
- Improve nutrient digestibility
- Reduce methane production

Packaging: Optibeef farm pack comes in 50-lb bags and has a feeding rate of ¼ lb/head/day.

See how Optibeef farm pack can impact your herd's productivity and profitability.
